

Academic Conference Review Guidelines & Policies

Welcome to the Conference Review Committee. Please review the following strict operational rules:

1. **DOUBLE-BLIND PRIVACY:** Under no circumstances should the identity of the paper authors be revealed to the reviewers, nor should the reviewer names be leaked to the authors. This is crucial for maintaining unbiased evaluation.
2. **CONFIDENTIAL COMMENTS:** Review comments are divided into public sections (sent to the authors) and confidential comments (visible **ONLY** to the Program Chairs and Program Committee). Confidential comments often discuss concerns of plagiarism, author identity guesses, or negative accept/reject notes and must **NEVER** be shared with authors.
3. **EVALUATION SCORING:** Scores range from 1 (Strong Reject), 2 (Reject), 3 (Neutral), 4 (Accept), to 5 (Strong Accept). A minimum average score of 3.0 is typically required for acceptance.
4. **SECURITY RESTRICTIONS:** Do not upload submission materials, draft papers, or database logs to public platforms or external APIs.
